SUNY EMPIRE
STATE COLLEGE

BA in Psychology Degree Planning Worksheet

BA in Psychology degree programs must meet all the requirements listed below. Knowledge of each outcome can be demonstrated through transcript credit, individual prior learning assessment (iPLA), prior learning evaluation (PLE), credit by examination, or specific courses at Empire State College. The goal of this worksheet is to provide a list of the SUNY Empire courses that fulfill each requirement. Students will explain how they meet each requirement in their Degree Program Rationale.

In consultation with their mentor, students are encouraged to use the worksheet to help determine how their degree will meet Program Requirements. Empire's general graduation requirements (e.g., General Education, Educational Planning, credit totals) also apply.

For each degree requirement, please check off which course will satisfy it or add additional course information. If the student is meeting the requirement with an equivalent course from another college or through prior learning assessment or credit by examination, that information should be provided under "other." ESC's general graduation requirements (e.g., General Education, Educational Planning, credit totals) also apply to the BA in Psychology.

Approved by dept: March 7, 2022
